Commented [LE1]: The City has decided to change the reporting frequency to semi-annual which is allowed by 40 CFR 403.12(h). However, the City should consider how that change will affect the "City of Helena Industrial User Monitoring Report Form." Currently the industrial user monitoring form for MRL only has room to report one sample for the reporting period. The City must ensure that all samples in the reporting period are included in the form.
